Building Linden and Iowa Bridges

60/91/215 Freeway Improvement Project

WHAT: Closure of Linden St. and Iowa Ave. near SR60/I-215 and University of California, Riverside, at the corner of Linden and Iowa near Niki Way

WHERE: Corner of Linden St. and Iowa Ave., just east of Niki Way and Iowa Ave. where the new University Towers are under construction

WHEN: Beginning Tuesday, May 31 and ending approximately Mid October, 2005

WHY: Local streets leading to the Linden St. Overcrossing over the freeway need to be raised by 3 feet to match the height of the new bridge

Accommodations to the local community

- * Pedestrian access will be provided through a temporary walkway.
- * Neighboring church members can continue to use Linden St. to attend worship services.
- * Parents of North High students will be allowed to use Linden St. to drop off their students and pick them up.
- * Linden St. and Iowa Ave. will be effectively closed to through traffic.
- * To avoid congestion in the student parking lot at North High School, vehicles may make a U-turn on Linden at the established barriers.

All other traffic will be turned away from these streets during the closure period. Caltrans is making every effort to minimize any disruption to local businesses and residents.

Completed metal rebar on bridge deck is needed for final pouring of concrete. Estimated completion date: mid-October, 2005

Please call Caltrans Office of Public Affairs at (909) 383-6733 for additional information. The \$317 million 60/91/215 Freeway Improvement Project should be completed in 2007
